The Wisdom & Musings of John, an Old Retired Chicago Cop

Part 1

[http://katana17.wordpress.com/]

September 12, 2014

[Image] This was the reflective decal that was used on CPD cars in the sixties and seventies.

The following comments were all made on the excellent Irish Savant blog* starting from Nov 2010 to Feb 2013. As a retired cop from Chicago, John’s comments reflect his street-wise wisdom, race realism and cutting humor that will have savvy readers nodding (and occasionally laughing) in agreement, or not.

* http://irishsavant.blogspot.com/
WARNING!

- John’s worldview is an acquired one, so bear with the birth pangs.

- John appears to have an on and off love affair with his CAPS KEY. It’s usually either ON or off. I suspect the cause of this stems simply from a sense of efficiency — why spend time and energy in engaging or disengaging that damn CAPS KEY lock? AND BTW, WTF IS A CAPS KEY LOCK?

- In a similar vein John is not man to be held down by tyrannical rules concerning punctuation, grammar or spelling. Real men make and follow their own rules.

- John calls a spade a fucking spade. He doesn’t call a nigger an African American, he calls him a nigger. Likewise he doesn’t call a jew a Chosen One, he calls him a jew.

- Dim Witted Liberals (DWL) and the Politically Correct (PC) crowds will find the following material deeply shocking and offensive. As John would say, “WELL FUCK OFF!” For those that persist, you can learn a lot from someone who has spent his life dealing with the damage to society that you fuckers have created.

With the above warning in mind please learn and enjoy!

PS: John, if you are reading this, many thanks!

Note: The bold text refers to the blog post title being commented on in the Irish Savant.

hung around with a kid while growing up in chicago and his dad was a orthodox kosher jew who was feld reb in german army in WW1, this consisted of his ministing to jews who served the Kaiser as a chaplain, he swore up and down that germans would not do the acts that WW11 exposed. tough old guy some drunk made a crack outside a tavern about the old guys side locks and Rebbe decked and walked on his way.found that german jews had great loyalty to germany up to time of Hitler and would have fought on his side if craziness had not started, their loyalty matched that of american jews.

I wondered down the hall to where we used to keep the throphies foe city wide football wins, instead of the throphies that were all gone the display case contained RIP cards and jackets of kids who were murdered by other kids. scary isnt it. unfortunatley this is what you will be seeing in your country as the govt, lets more of these wild people come in.so you see Detroit dosent surprise me.John old rtd chicago copper.

one of the problems is young women don't know what they are getting into. they fall for the romance of the unknown and you can blame romance novels and end up raped. also foreign men who are dark etc really work hard to get them into bed. another problem is most middle-class white women have been taught it is bitchy to doubt a man's intentions and so they end up in a vulnerable situation and are raped.

her friend was taught to wrestle and do martial arts from the age of five. she was allowed to beat up any boy who harassed her and black boys and mexicans tried to rape her at school and she beat the shit out of them. she did not take up with blacks and married a white man. what does this tell you? the little lady had no survival skills- the not so nice girl survived, both had to deal with the same males. the boys at school told the new boys don't mess with J-- she will kill you.

I fear, Savant, it will not be long before Ireland experiences this sort of incident—your increasing Nigerian population will no doubt engage in this sort of behavior against the native Irish population. How the hell did Nigerians end up in Ireland anyway??

Hello savant, we have a yearly abortion called TASTE OF CHICAGO here in the windy city, where all area restaurants who are politically connected have a two week spread of highly rich and pricey foods, now in the last few yrs kids from the suburbs and white areas have been soundly punched, stabbed, grouped and have been shot at, all this was never in the msm, the mayor idiot theif that he is now wants to turn this over to a pvt polittalcy mgt. company to over see the graft and mayhem.

America went through a revolution, civil war, civil rights fight, 2 world wars, and Vietnam and we came out stronger then we went in, and after the 2nd world war we helped defeated nations regain strength to come back. the marshall plan, and American pvt. industry rebuilt Japan and Germany, if any other country Canada included had our problems they
would have shifted to ethnic enclaves in their own countries ala bosnia and the french speaking ppl of canada who dont speak english unless they are trying to sell you something, all in all the usa isnt so bad when it comes down to the thruth and when was the last time you heard of americans climbing the fence to flee into mexico.

the worst i have seen was on you tube where brit soldiers were coming home to their native base and were shouted and disrespected while marching through town after coming home from iraq, america may be in some ways be screwed up but we would never let the Muslims here do this thing.
